I don't have additional comments

Everything was really fine. I just need a long-term vision of partner responsibilities.

I think we advanced a lot in closing IO1 and intermediate report, as well as to clarify issues regarding to future goals to achieve.

It was important to meet in presence to discuss and agree about important issues of the project.

Q10: Suggestions - concerning the next steps of the project in IO2 development and the training course in Spain, how would you like to contribute?

We aim to transfer the knowledge we will gain to as many people as we can in the school and the local community.

Don't have suggestions

I think it is better to have more hours of laboratory, to understand deep how to create and train our students.

-

Experience in UE projects, communication sector background, local knowledge of Spain.

We hope to develop IO2 on time, and that the training in Valencia will help us to acquire the correct knowledge to help the students recording and publishing the videos.

It's good to have suggestions to clear the structure of the IO2 pilot in schools
