Come collegare un microfono esterno per i video sullo smartphone

Su molti **dispositivi Android**, se non è presente la possibilità di selezionare il microfono esterno sull'applicazione video integrata, è necessario utilizzare necessariamente app di terze parti. Vi presentiamo le migliori che offrono questa funzione e lo fanno gratuitamente!

Come collegare un microfono esterno per i video sullo smartphone

Open Camera (GooglePlay Store)

App completamente gratuita e open source. Questa applicazione consente di selezionare il microfono esterno per avviare le registrazioni video. Inserisci il microfono nel jack del tuo smartphone ed apri l'app Open Camera. Ora seleziona la modalità video e quindi in alto a destra fai clic sulla rotellina delle impostazioni. Ora seleziona Impostazioni Video e scorri fino a "Sorgente audio" e selezionalo.

Una volta collegato il microfono, apri l'app e **premi sui tre punti in alto a destra**, quindi fai clic sulla **rotellina delle impostazioni**. Ora scorri verso il basso fino a **"Sorgente audio per la registrazione video"** e scegli **"Microfono/Microfono esterno"**.

Suggerimento per un montaggio facile

Come collegare un microfono esterno per i video sullo smartphone

Su iPhone la procedura è molto semplice e non richiede app aggiuntive ma funziona direttamente con l'app nativa per registrare video. Ovviamente il dispositivo deve avere un jack per inserire il microfono. Il microfono deve avere il jack TRRS a quattro contatti come nel caso dei telefoni Android. Ecco la procedura da seguire per collegare un microfono esterno su iPhone:

1. Apri l'applicazione della fotocamera e impostala su video
2. Dopo aver aperto la funzione video inserire il microfono
3. Ora inizia a registrare
